

Dear American veterans!

Hello, my name is An sojung and I'm the first grade of middle school student having thankful mind for your help.

I read many books about the Korean war, I could realize your troubles which you experienced in my country. Although I didn't witness the war, I could know how terrible it was. My grandmother told me a story about the Korean war that she had endured. If it wasn't for your help we couldn't have lived in such comfortable world. I felt very sorry about your side effects caused by Korean war.

I hope that your bad memory gets better with this letter. I won't forget your efforts and sacrifice. I'll be a good person who serves other people in trouble.

Unfortunately North and South Korea are in the state of armistice. The war might be occurred again. However I believe we will live together peacefully some day. I'll try to make my friends know your sacrifice.

I heartily thank you. bye ~

Sincerely

from An sojung
