

Today, because of you what I learned from you every choice I made was different and my life has completely changed.

To. KWVA

Hello, My name is Min-Seok-Choi from Korea. You know that Korea is now a democracy country and I love that. But, there is a sad history behind this and it also includes you. The 6.25 war also, known as Korean war began in 1950. I heard that it was a horrible war. Lots of people died including our friends and families.

I'm very sorry to hear that our beloved died during the war. I think we should thank all of you for your kindness.

Volunteering for a war is a brave thing to do. Our country survived this war because of your help. I thank you about helping Korean people during the war. Now, Korea is developing rapidly. 6.25 war was a war between North Korea and South Korea. and during this war again thank you for helping South Korea and to become a democracy country.

When there is a war usually people run for their lives because they must survive. But, you guys however, didn't run away and fought for our country even if it was not America. I was moved when I heard this. Also I heard that only 3,000 of brave soldiers survived. I'm very sorry to hear that. When there is a war or even a little crime happens I will volunteer to help the people who need help the most just like you guys. It is honor to write a letter to the most bravest soldiers in the world.

Today, because of you, what I learned from you every choice made was different and my life has completely changed.

one more thing. If you have a trauma about the war

I will give you an advice. plz do not think about the dark past.

It will only give you more stress and damage to your brain
Even if something valuable is lost you must have hope.

Don't give up everything in your life just because of a war.

Start a new one and keep on reducing stress with physical activities.

It might give you happiness. I don't know how it feels to

be in a war but I know that it is very dreadful.

Also, that war must not happen again. Time might help you
overcome all these stuff. Thank you for letting me write this
letter that might help you.

P.S. feel happy and life may seem good. I'll always
be a fan of heroes that saved Korea.
