

✧ Wishing you happiness today, tomorrow and always ✧

Dear Korean War Veteran 

Hello, I'm a middle school student in Korea named Choi-Sumin. I'm not good at English but in order to convey the gratitude about the Korean War, I write this letter to you. I'm fifteen years old, so I didn't live in times of Korean War. Therefore, I just learn about this war in history class. Before, I didn't know that the other country came to the South Korea to help the war. But now I found that the U.S helped us, and I'm really appreciative of your help. Without your help, it would be hard to ceasefire by our army, and I can't live comfortably. I don't even want to think about the life with war. Thanks to your help, I was able to play with my friends, eat many delicious foods, and wear the many beautiful clothes. I'm happy to convey my mind by writing letter event. I'll give a ever lasting gratitude and respect to you who came to South Korea when you are young in 1950s. I'll never forget that the help of many has made today possible and your help.

And I wish you good health and happiness.

From. Choi-Sumin
