

Today, because of you what I learned from you every choice I made was different and my life has completely changed.

To. KWVA

Hello, I am Kim-Hyun-Soo from Korea, but I will use my English name which is Daniel.

First, I want to thank you for fighting for us in the war. If it was not for you and the other soldiers, South Korea would not exist in this world right now. Before, and just after the war, Korea was a very poor and devastated country. But now we have become a wealthy nation, who can give help to other countries.

Thank you for helping our country. We will remember you forever.

Second, if you have the chance, I hope you can visit Korea and see how it is.

It has changed a lot since the war.

Nowadays in Korea, there are tall buildings almost everywhere, People are always busy working.

The economy is growing. If you could visit Korea, it would be a good memory to remember us. For it is you who made all of this possible.

2014. 5. 7

Sincerely, Daniel
