Happiness is something that we are all capable of having.

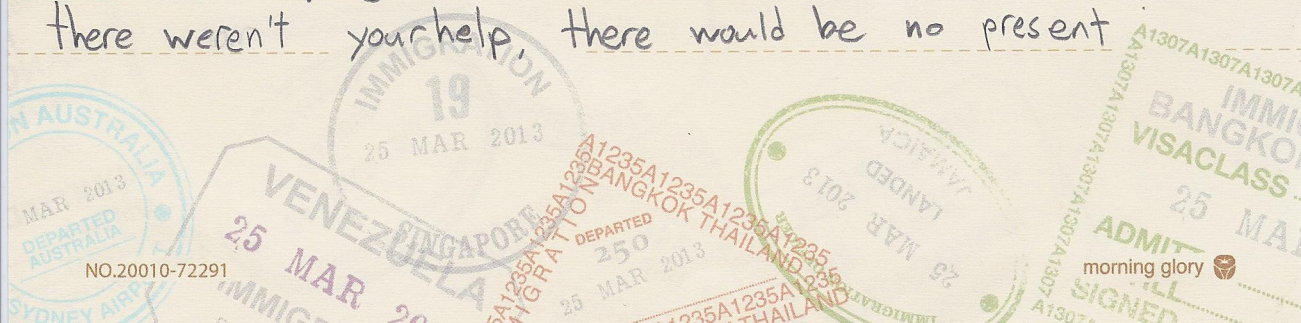

Dear : US veterans

Hello . I am Hyeon -Woo Yoo from a city called Daejeon in Republic of South Korea .

One day, I was reading a Korean history book and I have learnt from reading that book that many of U-S soldiers helped saving our country . Considering the fact that you have even dedicated your lives to fight for us ; other foreign contry, my small letter is definitely not enough to return back your kindness . Your kind considerations and grace is too big to return . It is very heart breaking when I think about how much you would have missed your country and family while fighting for us devoting your lives .

A lot of soldiers from the United Nations and the United States travel long ways to give peace to small countries that are never heard of, I deeply thank you for your great courage and beliefs

Due to your help, our cantry, Republic of South Korea has stood up again with the tenacious life forces . If there weren't your help there would be no present

Republic of South Korea, and also there would be no presence of these children with dreams and hopes.

Unfortunately, there will be some soldiers who have passed away during the Korean War. I really thank them with all my heart. Thank you very much.

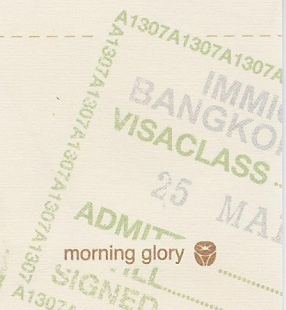

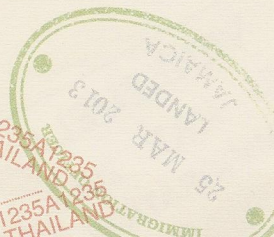

With kind regards

May / 11 th / 2014
