

Dear, Sir.

Hi? I'm Jung Yu Jeoung, from Korea, and I am 8th grade in Shin-Back-Hyeon middle school. First of all, I'm very pleased to express my grateful heart. I sympathize the pain of Korean War. My grandfather is in North Korea because of Korean War. Grandmother often shows us grandfather's picture and says that our duty is not to forget grandfather. Like that, I think that our duty for US Korean War veteran is not to forget them.

I hope they come back as soon as possible. I have been heard about Korean War many times from my family because of family situation and I can understand the pain of it. Korean War was very terrible. However, when I take a look around, there are many people who just believe Korean War is one part of history. Even Korean don't understand about Korean War. How hard is it to fight and sacrifice for another country under the name of the UN forces? Your courage and sacrifice is very respectful and surprising. Development of Korea and peace keeping are thanks to your achievement. I really thank you for your sacrifice. Your achievement will be memorable in our mind forever.

Sincerely,
Jung Yu Jeoung
(May 9, 2014)
