

Dear a brave American soldier

Hello, my name is Junho Park, I live in south Korea, It hasn't been long since I heard about the 6.25 war minutely. It was very miserable.

I am very grateful to have a chance to deliver my appreciation, It is a great honor to me.

Thank you for fighting with us in the war.

Basically it is a very dangerous and risky thing to support a different country at a war. Although America sent a lot of reinforcements and supplies,

another thing is, you soldiers fought like you didn't spare your lives. I am very glad about these things you did for us. Because of your help,

South Korea has developed a lot. Our economy and technology have advanced and even in car business our country is the best. You will be

surprised and amazed if you come to our country,

The citizens of Korea always admire and thank you. I wish the government of South Korea

announces several policies that praise your contribution.

I desire to repay your kindness. If I become a politic person I will offer to make rules

that praise you and if I become a soldier,

I will always think of you and fight bravely and boldly.

If you come to Korea I want to meet you one time.

I am very thankful.

Sincerely, Junho Park
