

Especially
for you

In Absolute Glee

Happiness is something that we are all capable of having.

Dear A soldier to help us.

Hello. I'm Kang Kyeong Hyeok in Hanul high school 1st grade. I live in Ui-jeong Mun, in Korea. I'll tell you about my family story.

My grandfather's hometown is North Korea. When Korean war began, my grandfather came to South Korea alone. He always missed his family. I couldn't hear directly since he passed away before I was born, but my grandmother sometimes tell me about it. His family is still alive, but we couldn't meet them because my grandfather was dead. My grandfather who experienced Korea war said that many people was dead at that time. I thought it was one of those things since the war broke out in our country, however soldiers who pushed crosses at United Nations Memorial Cemetery in Korea were different. As I visited aunt in Busan when I was young, I have payed their respects at the United Nations Memorial Cemetery. I couldn't know what it is since I was young, but I can know it by writing this letter.

In Korean War, 17,541,400 soldiers in 21 countries participated in the war to help us. Then, nearly 4,000 soldiers died in a war and about 2300 soldiers were buried in UN cemetery. There were many young soldiers. There were also many families who earnestly wanted they came back safely. Recently, I saw their parents waited since many students was dead because of sunken ferry Sewol accident. Even though it was disaster in our country, their parents were very sad and heart-stricken. I can't guess how sad soldier's parents whose were dead in other countries were.

I should not forget peace and freedom that came from UN war veterans' sacrificing UN Memorial cemetery in Busan is the place where our nation's respects gather.

Happiness is something that we are all capable of having.

I'll go there again and pray for rest of the soldiers. Thanks for sacrificing to help Korea and we respect you.

2014.05.11

From Kang Kyeong Hyeok.

Thank you!
We always respect you!
