

Life is full of delightful melody 

When you look up into the blue sky
You will find a great big smile through the clouds
Smiles are what fill us with delight
And bring us back to our good old days

To. War Veteran

Thank you for helping us at the Korean War.

Before doing this activity, I didn't know about war veterans, like you.

But now, I'm really grateful to you. Also, I felt relieved that I wasn't born in the time, during the Korean War.

Though, painful and hard time, you didn't hesitate and came to help us. I think it is really the behave behavior I consider that the war is the most cruel and immoral thing in the world. It makes everything gone.

By the way, have you ever regret about participating in the war? It may remain you horrible memories. I want to know how you conquest the hurt by war

I'm just a student of Korea, but I want to learn more about you and give thanks to you.
