

Today, because of you what I learned from you every choice I made was different and my life has completely changed.

Dear American warriors.

Hello? My name is Seung Hyeon Baik from Korea, and I am 2nd grade in Nae-Jung Middle school. Straight-forwardly, I don't know exactly about UN warriors who joined the Korean war, but I know exactly about your sacrifice and courage. At the time when the North Korea came down to South Korea, you may have fought against the North Korea with Korean warriors. Korea is not your nation, but you helped us to confront North Korea. Due to this, I could feel your effort and spirit deeply. I heard from a warrior from America that he thought Korea is another homeland so he participated in the war. In addition, I have been the UN memorial cemetery in Korea. I saw a lot of your comrades-in-arms written on a monument there. I was so impressed and deeply moved. I know your biggest worry is that if you passed away, your sacrifice and achievement might be forgotten from people. However, Koreans still trying to memorize your achievement and courage. So, please don't concern about it and enjoy your life with our appreciation. Thank you.

2014/5/8 Sincerely, Seung Hyeon Baik

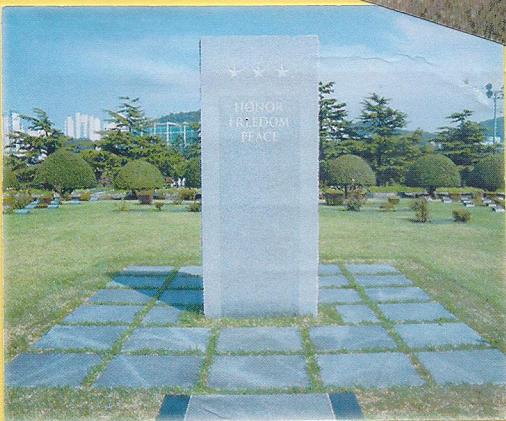

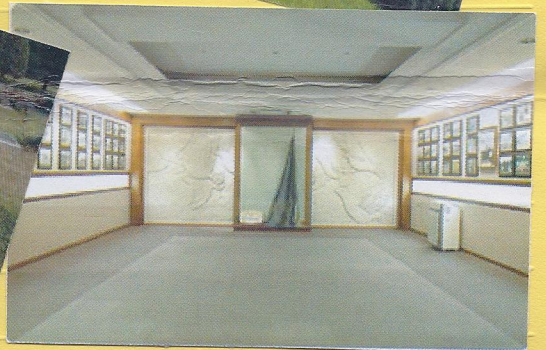

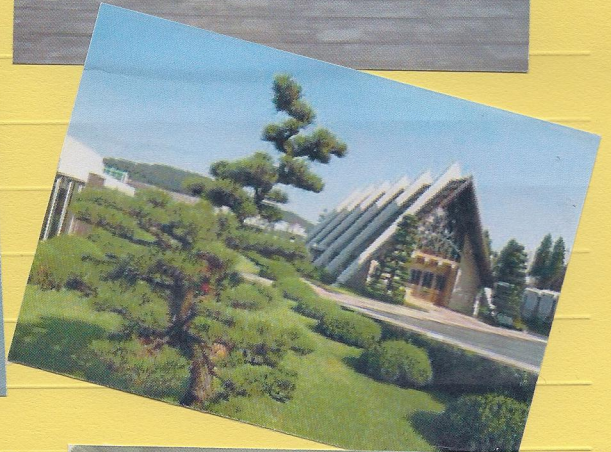

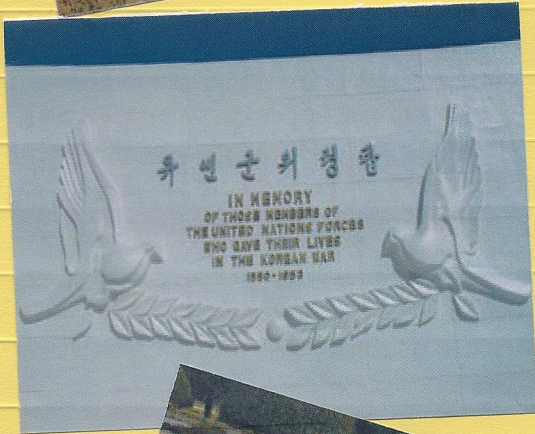

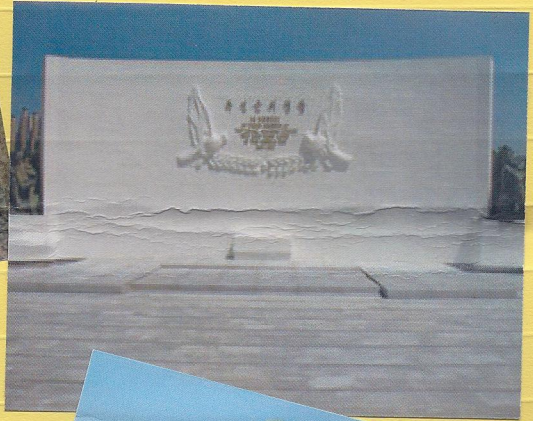

At UN Memorial Park

Today, because of you what I learned from you every choice I made was different and my life has completely changed.

We will remember all of you

forever~

We are friends
forever~.
