

Right when the weather begins

to warm and the flowers bloom.

Dear Sir,

Hello, my name is Yeji Chang, from Seoul, Republic of Korea. I heard about the soldiers who fought in our country, Korea, I saw the videos about 6-25 war. Many soldiers got hurt or dead. It was horrible! I couldn't watch the video anymore when the soldiers got hurt. It made me so sad, and I realized the war's fear. Some of the soldiers will be still getting cure, I think.

I only learned 6-25 war from videos and books. I saw many pictures and many books. But I would not know the soldier's feeling, because I did not see any war in front of my eyes. Soldiers would have realized their family's love, and the importance of life & peace.

I really want to say thank you for your efforts of protecting our country. Thank you! All of the Koreans will not forget your help. And I wish that, South and North Korea will be united soon, in about 5 years.

It is all of your help.

Thanks again to all heroes who fought for our country!

From, Yeji Chang.

These 2 square-shaped patchworks are called "Jogakbo", and they are hand-made by our mother. Please think of them as our gift for Korean War Veterans and kindly accept them! ^^

Jogakbo ♥

Jogakbo is a Korean traditional patchwork.

Based on the Korean ancestors' thriftiness and wisdom, it is made out of extra pieces of cloth.

Beautiful jogakbo is created by sewing the pieces with variety of colors and patterns, and it takes a lot of time and effort.

Therefore, the ancestors kept it carefully as a precious thing.

Jogakbo is also believed to bring luck to families.

♥ From. Yelim Chong & Yeji Chong ♥
