

Thanks for your kindness

Dear. American soldiers!

Hello. I'm a Korean student. My name is Shin Yu won, a 15-year-old girl, who is thanking you very much with living in peace now.

Thank you for your service in my country. If you didn't help us then, we might be like North Korea, too. And I will be grown hungrily in a poor country like nowadays at North Korea, without freedom.

I haven't been in a war, but I have learnt

about it's brutality, misery and bloody. Every wars are tragic events to both side of it. You fought for us in that bloody scene.

I don't know the mental pain when your friend becomes a cold remain without soul, and you survived by killing other side's soldiers, which are same people as yourself, But, I know it's hard to recover the pain memories. I just hope that your pain gets a little better with this thank - you letter. I won't forget your devotion. Thank you for your service. Sorry for you who had to fight because of other country. I prayed for your happiness and healthy. Good - bye !

sincerity. Yu won shih.
